HARDWOOD & UPHOLSTERED
FURNITURE

April 26,2021

We wanted to take a moment and explain to our customers that while we are striving to provide the best customer service we can, we are seeing longer than normal build times on our furniture.

The longer than normal build times are occurring all across the furniture industry. This is happening in both the hardwood and the poly outdoor furniture industry. Due to Covid-19 and the inclement weather that hit the south, we have entered unprecedented times. We never imagined the effect this would have on our products that we offer to our customers.

At this moment in time we are seeing build times of 24-28 weeks for some of the hardwood products and 16-18 weeks for the poly outdoor furniture. While we wish that we could do something to make these build times shorter, there is absolutely nothing we can do because of the supply chain issues. We will continue to provide the best possible customer service and keep our customers up to date with build times and where their items are in production.

This situation will not affect the quality of our items or the standards that we set for our builders. We will still require the highest standards when building and customizing the pieces for our customers that we always have. If you have any questions, please do not hesitate to reach out to us either by phone at 330-657-2095 or email to pascal@ohiohardwoodfurniture.com

Thank you for your time and interest in our products at Ohio Hardwood and Upholstered Furniture.

Sincerely,

Pascal & Martha King-Smith
