

Wood Gazebo Standard Features

Kiln-Dried, #1 Grade Lumber

Our lumber is kiln dried at the mill, then dried a second time after pressure treatment. This greatly reduces cracking and splitting.

Cedar Underside Sheathing

Top-quality cedar is found on the underside of each gazebo's roof. Its natural grain amplifies the rustic feel of our wood gazebos.

Roof Reinforcement Plates

Powder-coated stainless steel top-plate brackets strengthen the gazebo's roof while remaining visually unobtrusive.

Laminated Posts

Our wood gazebo posts are laminated for added strength and durability that exceeds a standard 4"x 4" post.

Octagon Floor Plan

Our floors are purposefully built in an attractive octagon shape, enhancing visual appeal while allowing for more efficient delivery and construction. Like the other parts of the gazebo, these kiln-dried floors are built to last year after year.
