A jewelry box Cheval like you have never seen before. We combine Old World Craftsmanship with New World design and technology to bring you a jewelry Cheval like no other. No more annoying door swinging around while you look for jewelry, this sleek design allows the mirror to slide in the direction of your choice on full extension slides. More importantly, it stays facing you so you can see yourself without closing the mirror like the hinged version. Offers eleven necklace holders, three ring slots, and two shelves with dividers. Storage drawer Cheval with velvet lined drawer bottoms are also available, see price list.

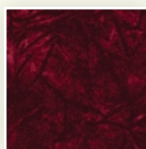

For storage drawer version, see storage drawer Cheval page.
