

CUSHION FILL OPTIONS

Seat Cushion Options **Standard Seat Cushion Fill:** Refer to the individual style in the price list for both the style-specific standard seat cushion fill as well as charges for changing the standard seat cushion fill.

Slipcovered Ottoman Top Fill: Due to slipcover ottoman construction, optional fill for cushion tops are not available.

Committed to environmental stewardship, all foam incorporates BiOH HR (High resiliency – 1.8 minimum density) polyols derived from natural, renewable soy beans. When compared to traditional petroleum based polyols, BiOH requires less non-renewable energy to manufacture, emits less global warming emissions, and reduces the industry consumption of petroleum. We offer six seat cushion fill options with varying levels of support. Refer to the individual style in the price list for both the style-specific standard seat cushion fill as well as charges for changing the standard seat cushion fill.

California Requirements: We use flame-retardant-free cushions, foam, and decking that has been tested and approved by CertiPUR-US® to meet standards for content, emissions, and durability to ensure consumer safety and environmental stewardship. Per this new regulation, and effective January 1, 2015, all of our products are now labeled as CA TB117-2013 compliant.
