

Creative Accents Grade Rugs

Auto+Graph Grade rugs are made entirely by single needle hand tufting, one line at a time to provide ultimate design flexibility and a richly dense pile. The single-needle craftsmanship technique allows for crisp detail and varied pile heights lending sophisticated texture and uncompromising luxury.

An example of the single-needle tufting process is on the Creative Accent website - <https://creativeaccents.com/process/>

Auto+graph grade rugs are available in wool or nylon, in cut pile from ½” to 1”, loop, and in short shag, up to 1 ¾”

Plush Grade rugs are hand-made using a pass-tufting process for the background with detail added using the same single-needle hand tufter used to make an entire Auto+Graph grade rug.

Plush grade offers a high-quality rug that is slightly less dense and at a more attainable price.

Plush grade rugs are available with a ¾” cut pile background. Detail may be added in ½” or 1” cut pile or loop.
