Creative Accents Rug Types

A “standard” tufted rug has cut pile, similar to a wall-to-wall carpet. We measure the “pile height” as the height from the backing to the top of the yarn.

½” cut pile: creates a sleek, modern look and is recommended for commercial, dining room, conference room, and similar applications. ½” cut pile is available as a primary background only in Auto+Graph grade. It is available in detail areas only in plush grade.

¾” cut pile: is our default cut pile height and is available in both grades, in any area (background or detail).

1” cut pile is our highest cut pile and is available in any area in Auto+Graph grade but only in detail areas in plush grade.

Loop is yarn that is looped rather than cut so that what is visible is the side of the yarn. Looping creates a different texture for cut pile and is 5/8” high so is perfect as a texture and height accent. It is available as in detail areas in both Auto+Graph and plush grade rugs.

Short Shag – 1 ½” – 1 ¾” offers a more current take on the classic shag and was developed for newer designs like Yikes Stripes!, Which Way Did They Go, and Fisher King. It is available in any area in Auto+Graph grade but only in detail areas in plush grade (e.g. Brady).

Longer Shag – 2”-4” is available in limited styles as shown on the price list. Longer shag rugs are made using a hand sewn process developed by Creative Accents founder and offer a more traditional shag look.
