

NEW COASTAL OUTDOOR FINISH

KEY FACTS ABOUT OUR NEW COASTAL OUTDOOR FINISHES:

- :: Formulated to resist harsh environmental conditions
- :: Extensively tested in our salt spray chamber where it's subjected to:
 - 100% humidity
 - Salinity nearly 50% greater than average sea water
- :: Significantly improved durability
- :: Your choice of six Coastal Outdoor Finishes
- :: Available on all Hubbardton Forge outdoor fixtures at no additional charge
- :: Required for outdoor fixtures installed within 20 miles of the coast in order to benefit from our Warranty*

“Our advances in finishes, materials and technology allow us to bring lighting outdoors that isn’t merely functional or accent pieces, but potential focal points for these outdoor spaces.”

DAVID KITTS, DESIGN DIRECTOR

*Our Lifetime Limited Warranty has specific requirements for fixtures used near the sea coast. The environment near the sea coast can be extremely corrosive. Hubbardton Forge has developed a series of coastal finishes for use in these areas. Within 20 miles of the sea coast, this Limited Warranty will only cover finish defects on products using our coastal finishes. See complete LLW in Specification Book or on our website.

TRANSLUCENT FINISHES

Our translucent finishes show off the character and texture of the metal beneath...

MAHOGANY -03

Our finishing process utilizes the methods that will bring out the beauty of the materials...

We strive to show the most accurate color possible. However, due to printing limitations, representations here may not be exact. Please contact your Hubbardton Forge showroom for actual finish samples.

Powder coating is more resistant to impact, moisture, chemicals, and UV light than liquid paints...

The eco-benefits of powder coating include low to no VOCs, the capability to recapture and reuse overspray and the ability to return exhaust...

We strive to show the most accurate color possible. However, due to printing limitations, representations here may not be exact. Please contact your Hubbardton Forge showroom for actual finish samples.

OPAQUE FINISHES

Opaque finishes showcase steel's texture or aluminum's smooth surface...

We strive to show the most accurate color possible. However, due to printing limitations, representations here may not be exact. Please contact your Hubbardton Forge showroom for actual finish samples.

VINTAGE PLATINUM & SOFT GOLD

The brilliance of our Vintage Platinum is stunning...

VINTAGE PLATINUM -82

Our Soft Gold finish offers a subtle warmth and elegance.

NEW FOR 2017 VINTAGE PLATINUM & SOFT GOLD ARE NOW AVAILABLE ON ALL INDOOR FIXTURES.

We strive to show the most accurate color possible. However, due to printing limitations, representations here may not be exact. Please contact your Hubbardton Forge showroom for actual finish samples.

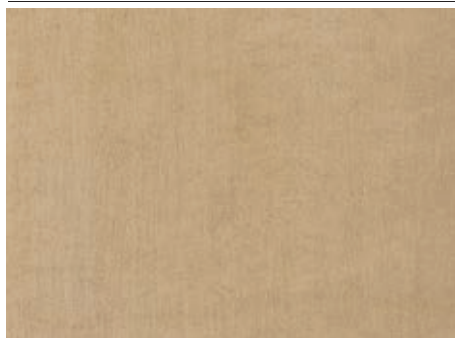

Gloss White brightens a space and highlights the fixture. *Available on select items.*

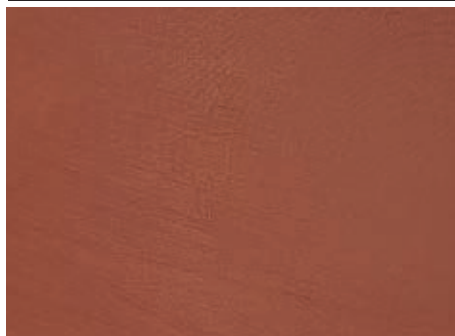

We strive to show the most accurate color possible. However, due to printing limitations, representations here may not be exact. Please contact your Hubbardton Forge showroom for actual finish samples.

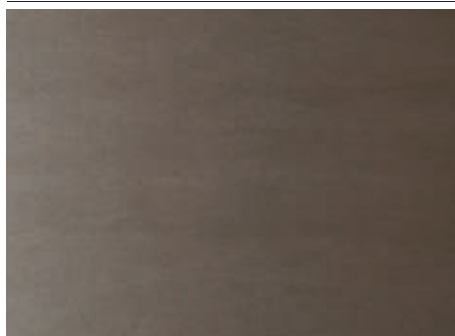

NATURAL LINEN

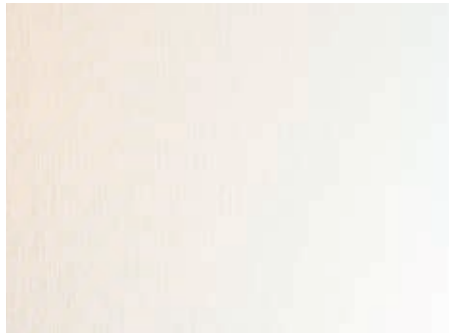

DOESKIN MICRO-SUEDE

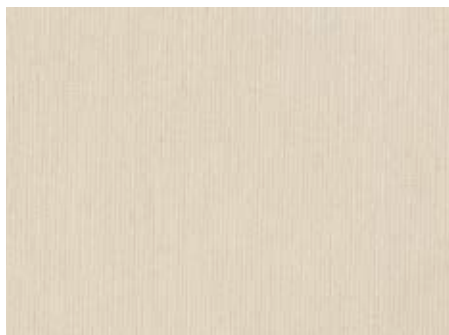

TERRA MICRO-SUEDE

ECLIPSE MICRO-SUEDE

NATURAL ANNA

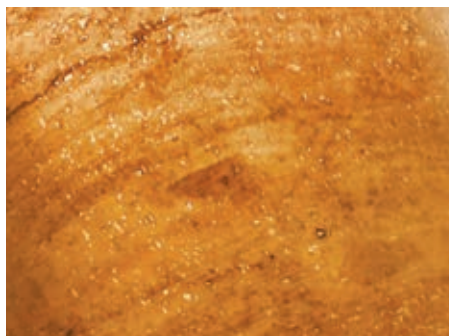

FLAX

SPUN FROST

SPUN AMBER

NATURAL CORK

NATURAL LINEN

A more traditional natural color fabric option with a coarser weave compared to our Natural Anna and Flax fabrics.

DOESKIN MICRO-SUEDE

Softer, richer fabrics, our microsuedes are hand-dyed and distressed to create a subtle patterning. The Doeskin has warm brown and tan overtones, especially when lit.

TERRA MICRO-SUEDE

A warm brownstone and rust red dyed fabric in the micro-suede family of fabrics.

ECLIPSE MICRO-SUEDE

A dark grey alternative in the micro-suede family of fabrics, for those who are looking for a more opaque shade option.

NATURAL ANNA

A more contemporary, white fabric with a tighter, smoother weave compared to the Natural Linen.

FLAX

Our most popular transitional, off-white fabric with the same weave as on our Natural Anna shade.

SPUN FROST

A white, non-woven fabric imparts a light, contemporary look and feel.

SPUN AMBER

A warm, amber alternative to the Spun Frost non-woven fabric.

NATURAL CORK

A renewable natural cork veneer which glows dramatically when lit.

LOW-VOLTAGE

OUR LOW-VOLTAGE PENDANTS ARE AVAILABLE FOR LINEAR RAIL AND TRACK SYSTEMS

HUBBARDTON FORGE UNIVERSAL CONNECTOR PENDANTS

are shipped with a male universal coaxial connector that is designed and tested to work with single or multi-port canopies, linear and rail systems offered by Edge Lighting as well as other manufacturers with quick connect systems.

We offer a residential Lifetime Limited Warranty on all of our universal connector pendants. Consult Hubbardton Forge for system compatibility and other questions.

Universal Coaxial Connector included with new Rail/Track version.

STANDARD LOW-VOLTAGE PENDANTS are pre-wired to a line-voltage canopy with space for excess cable, allowing easy height adjustability.

5.5" canopy included

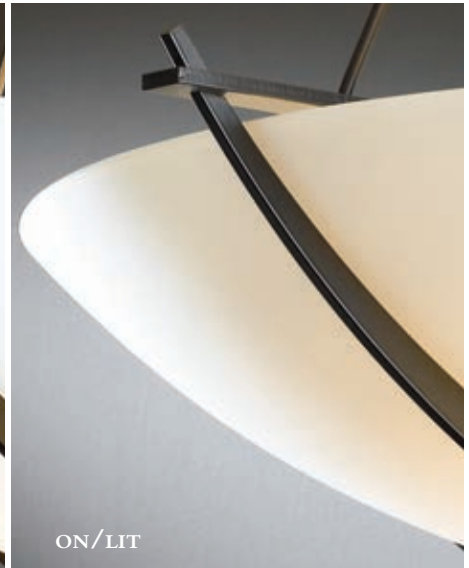

HUBBARDTON FORGE & AO GLASS

Two Vermont artisanal companies, Hubbardton Forge and AO Glass are collaborating to create unique hand-blown glass for a select collection of lighting fixtures. It is the union of two Vermont neighbors who pride themselves in forward-thinking design and consummate quality, with the shared goal of turning everyday objects into art.

AO GLASS

OPAL GLASS

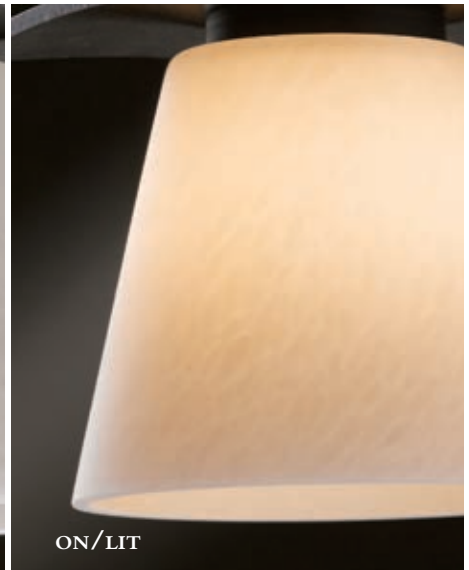

Our most popular glass choice. A neutral flat white when unlit, Opal radiates the warmth of the inner bulb when lit.

-G OPAL GLASS

PEARL GLASS

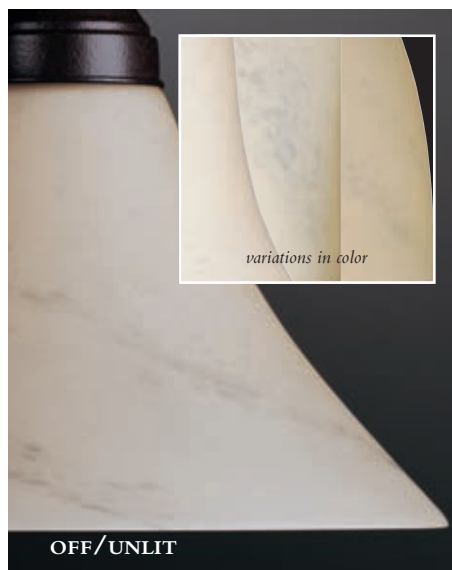

A matte, light cream color when unlit, it glows warm with very unique, delicate patterns of undulating clouds when lit.

-ZX PEARL GLASS

STONE GLASS

A transitional glass, Stone has a combination of earthy hues of warm ivory, beige and sand with flecks of grey striations suggesting natural stone when unlit. It takes on a warmer glow when lit.

-H STONE GLASS

OFF/UNLIT

ON/LIT

SEEDED CLEAR GLASS

The encapsulated bubbles in our Seeded Clear Glass veil its interior when unlit, but become alive with highlights when illuminated.

Available on select items.

-I SEEDED CLEAR GLASS

OFF/UNLIT

ON/LIT

WATER GLASS

Thick, wavy patterns, similar to an antique window, reflect the light with a slight sparkle. Water Glass retains the same characteristics when lit or unlit.

Available on select items.

-L WATER GLASS

AMBER SWIRL ART GLASS

Shiny-surfaced Amber Swirl Art Glass is a flowing blend of ivory and light caramel colored glass. It provides a warm glow when lit.

Available on select items.

-A AMBER SWIRL ART GLASS

WHITE ART GLASS

Shiny-surfaced White Art Glass is a lively blend of swirled cool white tones. It gives off a clean, natural light.

Available on select items.

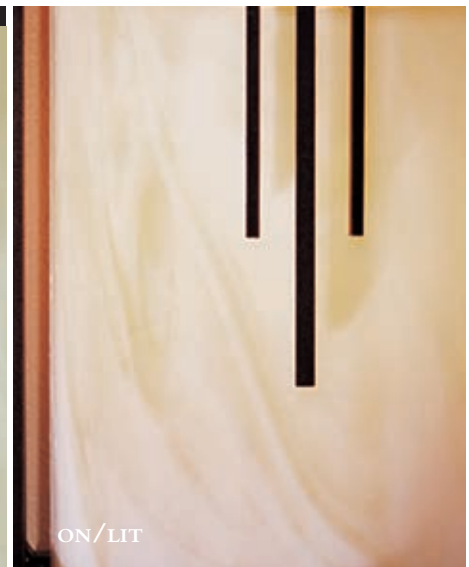

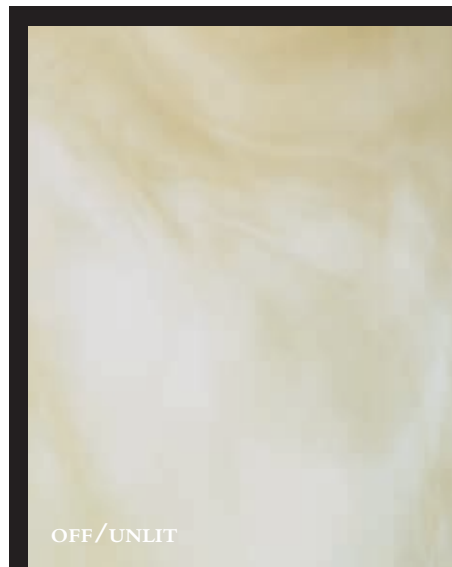

-B WHITE ART GLASS

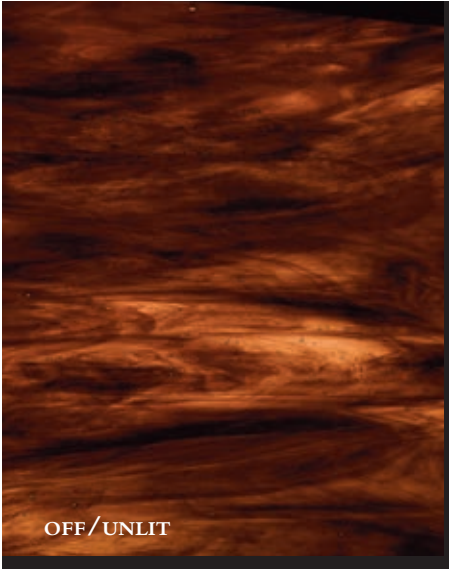

IVORY ART GLASS

Shiny-surfaced Ivory Art Glass is a blend of antique ivory and cream colored glass with a warm tone that falls between our White and Amber Swirl Art Glass.

Available on select items.

-C IVORY ART GLASS

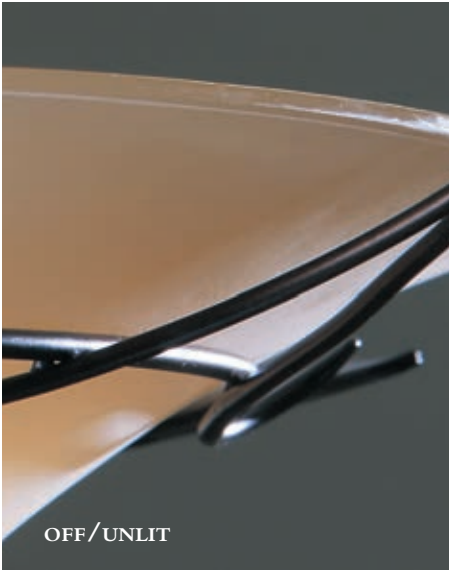

TOPAZ ART GLASS

Neutral deep brown when unlit, Topaz Art Glass dramatically transforms into a dynamic blend of rich and warm glowing swirls when lit.

Available on select items.

-ZB TOPAZ ART GLASS

SAND GLASS

Sand Glass's sandblasted surface is a natural beige-white color when both lit and unlit. The even tones of Sand Glass are a warm alternative to Opal. Sand Glass's overall hue most closely matches that of Stone Glass.

Available on select items.

-S SAND GLASS

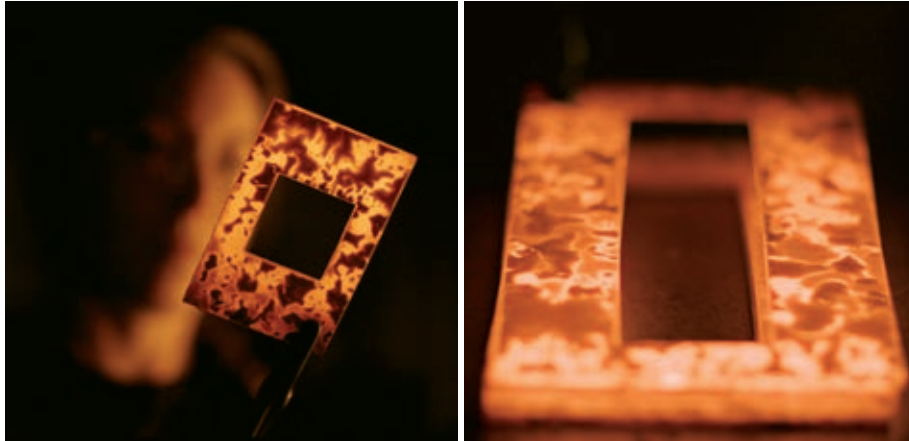

Please refer to the Specification Book for details regarding glass options available for each product.

Please note: Small blemishes and bubbles are inherent in hand-blown glass and are not considered defects. Due to the nature of the glass-making process, the pattern and balance of color in the glass may vary significantly within a piece and from one piece to another. It is the individuality of each piece that is so sought after.

We strive to show the most accurate color possible. However, due to the limitations and variations of the photography and printing processes, representations here may not be exact. Please visit your Hubbardton Forge showroom to see actual glass samples.

We purchase our glass domestically whenever possible, however much of our glass is sourced internationally.

LEGRAND

LIGHT & SWITCH.
FINALLY MADE FOR EACH OTHER.

What happens when you combine a 6,000-year-old art with leading-edge, touch-sensitive technology? The result is the Hubbardton Forge line by Legrand®, as part of the *adorne*® collection. Choose your stunning Hubbardton Forge fixtures, then add the ultimate final touch. Six lustrous metal plates, forged by fire to make *adorne*'s simply elegant switches and outlets a perfect match with Hubbardton Forge's rich array of metal textures and finishes. It's a partnership forged in the fires of creativity and passion.

For more information on the *adorne* collection, go to www.legrand.us/adorne.

Industry Professionals, please visit the website's "Pro Support" section to find a Legrand representative.
