DIMENSIONS (Dimensions may vary for each style)

KEY FEATURES:

- Solid steel chassis construction holds the frame in place which prevents the frame from racking or twisting.
- Standard Cushion Construction: Seat - Poly Dacron; Back - Poly Fiber
- Optional power and articulating headrest* available. Power switches are hidden inside of the seat cushion boxing.
- Optional chaise pad available to cover open gaps in footrest for ultimate leg comfort.
- The seat frame spring system is steel for added durability.
- All mechanical parts are made here in the USA and not imported.
- The outside backs are constructed to be tailored in one piece for better aesthetics and cleaner lines.

*Articulating headrest is not available with Solid Back option.
