- Catalyzed varnish top coat - 10%

Sherwin Williams Lacquers

The following Sherwin Williams pigments, pre-catalyzed lacquers, are stocked by MacKenzie-Dow and are available at

- 20% upcharge for solid coverage
- a 25% upcharge if a standard finish is pre-applied, and the pigmented lacquer is rubbed through to the standard finish in random areas of the finished product:

Acanthus	Black	Nautilus	Sunbeam Yellow	Vintage Red
Antique White	Studio Blue Green			

Colors are available with or without a black glaze over the finish.

For other colors in the then-current Sherwin Williams palette, there are the following upcharges:

- For a strike-off (i.e., sample) of the particular color on wood, there is a minimum charge of \$200 cost (not MSRP) for each sampled color. This charge is credited back to the customer if the color is used on an order within 90 days of sampling;
- For any color in the Sherwin Williams palette (excluding the stock colors above), they are available at:
 - (a) a 30% upcharge for solid coverage, or
 - (b) a 35% upcharge if a standard finish is pre-applied, and the special pigmented lacquer is rubbed through to the standard finish in random areas of the finished product
 The above special colors are available with or without a black glaze over the finish, and there is no upcharge for black glaze if chosen.

Please Note: There will be a slight color variance from the website sample to the actual finished piece. We cannot guarantee a perfect match from the website sample, and encourage use of finish chips to approximate final finish look. Also, even with colored finishes, the underlying wood tones can cause small variations in appearance.
